

Iced Chai Tea Latte Sipper

Serving size: 1 quart.

Ingredients:

- 1 cup cold coffee
- 2 cups of your favorite chai tea, brewed
- Ice
- 1 doonk pure stevia (2 if you like it sweet)
- pinch of mineral salt
- ¼ cup unsweetened nut milk

Directions:

In a quart size cup, combine coffee, stevia, and mineral salt.

Pour in the chai tea and stir well.

Add ice as desired and top off with the unsweetened nut milk.

Mix and enjoy!

Notes:

I personally love Bigelow's Vanilla Chai for this sipper, but feel free to use your favorite chai!

Unsweetened vanilla almond milk is particularly delicious with this.
